EMOTIONAL SUPPORT
In the world of chronic pain, there is a lot of focus on the wellbeing of the patient and the dog's journey with arthritis, but there is not much discussion around the journey of the caregiver.
Being the caregiver to an arthritic dog is HARD! It is a wild roller coaster of emotions and pet caregivers are often overlooked when it comes to address that. Whether you are a caregiver of an arthritic canine professional, or a pet owner who would like to address that, this is the place for you.
To make this happen, we have joined forces with Jo Edwards from The Jo Edwards Project, who is a mental and emotional health professional and has created a course specifically for caregivers of arthritic dogs.

A WORLD OF RESOURCES

WHAT'S INSIDE...

BECOME THE BIGGEST PART OF YOUR DOG'S REHABILITATION

NOT ONE BUT TWO COURSES!

CANINE ARTHRITIS ESSENTIALS

Building an effective, evidence-based management plan from scratch can feel overwhelming – we simplify that process for you and provide all of the facts you need to make informed decisions about your four-legged friend's care to reduce their pain and improve their quality of life.

YOUNG DOG JOINT CARE

While there is no way to prevent osteoarthritis, there are ways we can delay the onset or influence the progression of the disease to give our dogs longer, happier lives.

Included in the MZ

Standalone price = £35 each
